They have stolen my work without permission or credit and I want it taken down ASAP, either the asset or the experience. They have stolen my model and are trying to profit off of my work by using my model as their thumbnail for the game and as a drivable car in their experience.

I am the creator of the Audi R8 model originally designed for BeamNG. You can find my mod in the following links: <https://www.modland.net/beamng.drive-mods/cars/2016-2024-audi-r8.html> <https://www.beamng.com/threads/2016-2024-audi-r8.104086/> <https://youtu.be/5pPECrI TE3I> <https://youtu.be/bpoQSUjMGvE> <https://youtu.be/z7HktF0AyZc>

I would be more than happy to provide any necessary details in order to have my work removed from Roblox.
