### Notes

1. You'll need to learn how Thai license plates work before typing it in the plate numbers textbox. Each styles has it own formatting and specifications. I recommended looking in the first post of the thread where I explaining the plate patterns)
2. The results might not perfectly as good as the real one. Some character might cuts very awkward, or sometime it reflecting some weird textures. Depending on what you choosen.
3. There are the QC plates for quality testing cars too, but I can't find any actual QC plate photos everywhere. (except TC plates which I manage to find it, and also high quality too)
4. If you want to help or have a suggestions, just leave it in the thread or PM me as well.

**Stay tinkering and stay safe everyone. ^^**
